

GLUCAN EXTRACT POWDER

WHAT IS GLUCAN EXTRACT?

A mushroom derived glucan extract rich in a blend of mono-, di and polysaccharides. The natural fibre is high in α and β -glucans (17-39 %) of varying molecular weights (10^2 - 10^6 Da) and further as a single source of soluble amino acids, vitamins and minerals. Our gentle manufacturing process preserves the natural mushroom flavour profile.

PROPERTIES

High in glucan, natural sweetener, low in sugar, high in dietary fibre
100 % traceable and sustainable.

Our glucan extract contributes to :

- ✓ Immune health and gut health*
- ✓ Anti-inflammatory activity
- ✓ Heart health
- ✓ Lowering blood cholesterol levels

Animal clinical studies currently underway

APPLICATIONS

Our glucan extract derived from mushroom powder can be applied to a wide range of sectors including:

- ✓ Sports performance beverages
- ✓ High calorific enhancers
- ✓ Superfood blends
- ✓ Confectionary and baked goods
- ✓ Flavour enhancement
- ✓ Nutraceutical
